13th Conference on Catastrophe Insurance in Asia

30 June - 1 July 2015, Park Hyatt Saigon, Ho Chi Minh City, Vietnam

Asia accounted for 47% (US\$52 billion) of the US\$110 billion global economic losses in 2014.

With increasing urbanisation, the region is in need of greater protection. The Nepal earthquake highlights the perils and the need for insurance. With the evolving risk exposures and growing assets, there is a greater awareness for data and the need for better quality risk management measures, risk accumulation control and modelling as well as improved claims handling expertise.

The growth of megacities in Asia especially in coastal or seismic-prone areas has accentuated the problem. The need and demand for insurance coverage is increasing with escalating infrastructure investment and increasing production facilities in these areas. Can the insurance industry rise to these challenges?

Managing CAT risks has become an imperative for the insurance industry. Hence, at the 13th Conference on Catastrophe Insurance in Asia this year will look at the theme: "Managing the Rising CAT Exposures in Asia"

This two-day conference is a MUST ATTEND for CAT underwriters, reinsurers, CAT modellers, risk managers, brokers as well as all involved in the dynamic and volatile CAT market today as the insurance industry MUST respond to find effective risk coping strategies to manage the evolving and rising CAT exposures.

Who Should Attend

- Reinsurers
- General Insurers
- Reinsurance & Insurance Brokers
- Underwriters & Claims Managers
- Government Officials involved with Catastrophe Exposures, Environmental Planning & Climate Change
- Climate Change Experts & Agencies
- Catastrophe & Seismology Experts
- Catastrophe Modelling Agencies
- Risk Managers
- Regulators
- · Consultants & Actuaries
- Capital Market Players
- Service Providers to the Insurance Industry

Register Now!

Key Speakers include:

Dr Tran Vinh Duc

Vice Chairman of the Association of Vietnamese Insurers; Chairman of the Board of Directors, Baominh Insurance Corporation
